

4th Annual

Red Carpet Classic

Friday, December 4, 2015

7 p.m . | Decorah Sales Commission | Decorah, Iowa

Welcome to the 4th Annual Red Carpet Classic!

What a great time to be in cattle business. The consignors to the Classic Sale are excited to bring you another great offering for you to consider, whether it is a show heifer, a prospective donor cow, or an excellent breeding cow to put into your own herd. We have something to fit your bill!

The cattle will be at the sale barn on Thursday, December 3rd for viewing ahead of the sale. Feel free to give any of the consignors a call for any questions that you might have about any of the cattle being offered.

Thanks again for your interest in the Red Carpet Classic Sale consignments. See you December 4th at the Decorah Sale barn.

We look forward to seeing you and visiting with you at the sale!!

— The Red Carpet Consignors

Sale Location – Decorah Sales Commission, 2123 Madison Rd., Decorah, IA 52101

Sale Day Phone – Barn: 563-382-4203

Auctioneer – Kyle Gilchrist: 641-919-1077

Sale Day Dinner – There will be a complimentary meal available prior to the auction.

Pre-Sale Gathering and Cattle Viewing – Friday afternoon at the sale barn

Sale Terms & Conditions –

Liability: All persons attending this Sale do so at their own risk, legal or otherwise for their well being or safety. The Decorah Sale Barn or any of the consignors assume no liability for accident or property loss if it does occur. All cattle are the owners risk prior to the sale and become the property of the purchaser as soon as declared sold by the auctioneer.

Health: All cattle are eligible for interstate shipping and will be issued the proper health certificates by an accredited, licensed veterinarian for immediate shipping.

Phone bids: Telephone bids will be excepted and will be taken by anyone participating in the Red Carpet Sale.

Breeding Guarantee: All cattle are guaranteed by the seller as outlined by the Red Angus Association of America Code of Ethical Sale Practices.

Hotels –

Surprise!! We added a little twist to this year's sale. Every year we struggle to find a calving ease bull that doesn't give up performance, muscle shape and depth of rib. Best Man covers all of the above with EPD's to match, an exceptional foot and great disposition. The Floress cow family has become a front runner in our herd with A155 bringing Best Man out of the gate on her first try. Her mother produced our high selling open heifer in last year's sale for \$6,750.00 to Wildcat Creek Ranch and later traded for \$9,000.00 as a bred in their dispersal this fall.

Throughout the summer and fall we have turned down some really enticing offers. We intend on mating him to our heifers as well as most of our cows. We would like to give you the opportunity to use Best Man in your herd as well. We are confident in his ability to be a breed changing type bull. It will be exciting to see who jumps on the opportunity to use him with us.

Selling semen:

10 straws for \$500.00 or 25 straws for \$1000.00

Last time I checked we still sell calves and fat cattle by the pound. Best Man is a meat wagon. He will be on display so come to the sale and take a look for yourself, you won't be disappointed!!

If you are looking to jump start your program take a look at the next two Anticipation daughters. Study their pedigrees and you will find Meado-West Stella. She has made a big impact on the development of our herd as well as producing high selling daughters in each of our last three sales. These two heifers have been standouts all summer. We chose them for the sale as we feel they will compete in the show ring and go on to make exceptional cows. Fiona may be the most complete heifer we have ever raised. She weaned at 735lbs out of a first calf heifer. It really hurts to see this one go.

Neoma is a goosy fronted, deep ribbed heifer that will no doubt compete in the show ring. She also comes out of a first calf heifer with a 700lb actual weaning weight. Now just imagine these two Anticipation daughters bred to Best Man. Both heifers are halter broke and entered in Denver if the new owners wish to show them.

This ET calf comes from a proven cow family starting with her grand dam Red FL Firefly that sold to Wildcat Creek Ranch for \$10,000. A maternal sister Red Fine Line Mulberry 19T sold for \$13,500 to Tim Johnson. Her dam 57S was co-owned with Walnut Springs and is described by Mike Karweik as "the best cow he has ever owned". This heifer is going to make an awesome cow! A maternal sib to Lot 6. Halter broke.

We thought it would be fitting to add this young female to the sale as she is a maternal sib to the open heifer we are selling as Lot 5 proving once again that the 57S cow can flat out get it done. We are confident in the ability of this young female in her own right and we will give someone the opportunity to take her home and write their own story. Pasture exposed to NS Arson A24 (1611112) 6-6-15 to 7-2-15. Pasture exposed to 1EN Oly B50 (1715436) 7-3-15 to 10-1-15. Ultra sounded for an early-mid April calf.

Here is an opportunity to acquire a young untapped donor quality female that is just coming into her prime. Goldie was our pick of the bred heifers in the 2012 Canadian Red Round up sale from Diamond T Cattle and we landed her at \$7,100.00. She is a dark red, big volume, broody type female. We used her 2014 Oly son as our clean up bull this year. He is the service sire of lots 6 & 8. We made the decision to offer her in this year's sale due to the fact that she will fall a bit behind in our calving window. Pasture exposed to NS Arson A24 (1611112) 6-6-15 to 7-2-15. Pasture exposed to 1EN Lancer B124 (3470080) 7-3-15 to 10-01-15. Ultra sounded for a mid to late April calf.

A direct daughter of Mulberry who's influence runs deep in our herd. She has been a consistent producer for us every year. Her 2013 bull calf sold to Lynch Red Angus, her 2012 bull calf sold to Gary & Kelly Frana, and her SSS Arson 85U sired bull calf this year weaned off at 830lbs. Only due to the fact that she fell out of our calving window for next year is she being offered in this sale. She is not pictured due to the fact that selling her was a last minute decision. She will not disappoint!! Pasture exposed to 1EN Oly B50 (1715436) 7-3-15 to 10-1-15. Ultra sounded for an early June calf.

Here is a heifer that we would not be selling if she was born a couple months sooner. Out of a first calf heifer that has come to us by some embryos that we purchased from Ubar Ranch in Montana after their dispersal. Her mother goes back to the Bootjack Lass cow family. Put a halter on her and show her I think she will develop into a really nice female.

Lots 18-48: Consigned by Griffin Red Angus

The Griffin's welcome you to the Red Carpet Classic Sale! We have put together a set of cattle that have worked GREAT in our herd and will do GREAT in your herd.

The black red gene carriers that are in this sale have been the foundation and the building blocks of some of the best genetics that we have been working with over the past 10 years or so. If you have been watching our cattle the carcass quality of these animals have been as good as or better than most Red Angus anywhere. Our cattle milk, grade, and raise calves that will work in the feedlot and the pasture.

We are proud to call ourselves Seedstock Producers of Great Red Angus Genetics. If you have any questions about our program or our cattle feel free to give me a call & talk.

Thanks to all who have purchased cattle in the past and good luck to all who purchase in the future.

See you at the sale!

— The Griffin Family

362 is the son of Mulberry 26P and his dam, Red XXX Lakme 70M, is one of the best if not the best New Trend 22D daughters to date. 362 was shown at the IA State Fair in 2014 as a yearling and was Reserve Champion and shown again in Aug 2015 at the IA State Fair and was crowned Senior Champion. We recently sold him to Rodney St. John, Gainesville, Texas, for \$9500.00. His first calves we weaned this fall look promising. He scanned a 3.68 IMF and a 14.06 REA. We will continue to use him A I in our herd.

Miss Cash 3121 is an own daughter of Marcie 50N who was the pick of Bar- E-L's herd at \$15,500.00 to Soo Line. Soo Line in turn sold a flush to Brylor Ranch a year later for \$10,000.00. 50N was most recently in Wildcat's donor program & now resides at the Nelson's to be part of their donor program. She is a moderate framed, cherry red cow coming with her second calf. She had an adjusted WW of 582 lbs. She scanned a 4.57 IMF and a 10.8 REA. She is bred to calve mid February to GNRA Mulberry 362 (Ref Sire A), a bull with calving ease with lots of growth. He was the high selling bull (\$9500.00) to Rodney St. John, Gainseville, Texas, at the Mulberry Mayhem in Kansas in October. She has a full sister selling as Lot 41.

Another great black red gene carrier!! She is out of our Blackberry 063 bull which has done a great job for us. 063's Marbling is 0.85 in the top 4% of the breed and REA is 0.53 which is in the top 6% of the breed. He also ranks in the top 5% Herd builder with a 153 and the top 3% for Grid Master with 53. 259 herself is in the top 5% for Marbling 0.74, top 5% for REA .42. She had an adjusted WW of 684 lbs., scanned a 7.02 IMF, and a 12.1 REA. You will drive a long way to find another cow like this!! Only because of her calving date is she leaving. She is due mid May bred to GNRA Mulberry 210 (Ref Sire E). This calf will have a double shot of Mulberry 26P – nothing wrong with that. 259 has a daughter, Lot 33, in the sale. 259 is the daughter of Lot 24.

033 is a full sister to our GREAT Blackberry 063 bull that has done such a terrific job for us. We have several younger full sisters so we are selling 033 in the prime of her life. You will not find a better footed, deeper ribbed cow of any color. She has a beautiful udder and will pass that along to her daughters. She is in the top 5% Herdbuilder and 2 % Gridmaster. Her mother was a purebred black angus cow, a Connealy Lead On daughter. She has reached the status of both top 1% of the breed in Marbling and REA 1.0 and 0.64 respectively. 033 is bred for mid April to Reference Sire B, CGRA Red Ranger. You will designate one full trailer compartment to her. Her daughter sells as Lot 19.

9141 is an embryo we purchased from 5L Ranch. 9141's dam is also the dam of 5L Destination. 9141 weaned off a 890 lb. calf this fall so she knows how to do it right. She too is only leaving because of her calving date. She is due late May to Reference Sire E, GNRA Mulberry 210. She also ranks in the top 7% for Marbling 0.69 and REA 0.37.

20Y's dam, Fayette 33M, is a maternal sister to Mulberry 26P. 20Y is also a maternal sister to Red Brylor Fayette 40Y and Red Brylor Fayette 47Y which have respectively raised Kodiak bull calves that have been siring outstanding calves. She is out of the Brylor Fort Rock 68W bull which has been a great outcross. 20Y scanned a 5.13 IMF and 11.13 REA. She is bred for an early February calf and is bred to Norseman King. This could be your next herd bull or donor cow!!!

This Arson 23Y daughter is moderately framed with a low birth weight. Although she is black you have a 50% chance of getting a red calf. She is bred for an early march calf to the great Genex bull Andras New Direction R240 (Reference sire F). Scanned 5.33 IMF and a 10.04 REA. Should make an excellent cow!!

On one visit to Brylor Ranch in Pincher Creek, Alberta, Canada, we had the opportunity to see Nikita 2N, 405's dam. She totally impressed me with her udder quality, good feet and depth of body. We purchased these embryos and had two heifers – both black – keeping one and selling this one. Moderate in frame and a POWERFUL pedigree. Scanned 4.89 IMF and a 10.6 REA. Bred for early March to Reference Sire F, Andras New Direction R240. Should make an INTERESTING mating!!

527 is out of the \$42,000.00 (black red carrier) XO Crowfoot O102X x Moonshine 8081U son that sold at the Crowfoot Dispersal to Ole Farms in Canada. 527 is a deep sided, moderate framed heifer with lots of hair, show ring presence, and a great disposition. We showed her at this year's Iowa State Fair National Regional Show where she stood 3rd in a really tough February heifer calf class. She will be one of, if not the first, red heifers in the U.S. to sell out of XO Crowfoot O102X. These 0102X calves are some of the most complete calves that I have seen. They have muscle like no other and are very correct in their phenotype. Be one of the first to own one. I have never been so excited about a sire group of calves as I am with O102X progeny. Her dam, Red Soo Line Penny 5295, is a cow we purchased at the Soo Line Dispersal and has done a SUPER job for us here. 527 is a PERFECT example!! She will make an excellent show prospect and potential donor cow in the future. We are retaining the right to one flush at the buyer's convenience and at our expense – a minimum of 6 embryos.

22L is truly one of the matriarchs of the Red Angus Breed. She has produced calves like JKC FAF Mercedes 103W who was Reserve Champion Female at the 2010 NWSS and Reserve Senior Female at the 2011 NWSS and Champion Cow Calf Pair at the 2011 NAILE. At Mulberry Mayhem 2011 a daughter, 122X, who is a full sib to these embryos, sold ½ interest for \$15,000.00 to Phil Birnie, Wawota, SK. We recently sold 22L and would like to thank Blair's Ag in Lanigan, SK, for their purchase. Fine Line Mulberry 26P, the sire of these embryos, has been widely used in many herds in the US and Canada. This embryo lot is a NO BRAINER for any Red Angus breeder. Selling 4 IVF embryos with 1 guarantee pregnancy if done by a certified embryologist.

72A was our pick in the Brylor Ranch 42nd Annual Tradition With a Vision Red Angus Sale. She had her first calf this year, a Moonshine 8081U bull calf that is a definite keeper. 72A's dam was Reserve Senior Yearling Heifer Champion at the World Angus Show in Canada 2009. 72A's grand dam, Essence 42G, sold half interest for \$50,000.00. The sire of these embryos, SSS Arson 85U, is gone and his semen is very rare. Arson was the \$17,000.00 bull at the 2009 SSS Bull Sale. The Mulberry/Arson combo is looking to be an excellent investment. Selling 3 embryos guarantee of 1 pregnancy if done by a certified embryologist.

We are very excited to offer Candy on the 4th Annual Red Carpet Classic Sale. This is an opportunity for all Red Angus breeders to purchase some of the elite genetics of the breed. This Arson 85U daughter was the Reserve Grand Champion Bred and Owned Heifer Calf at the North American Junior Red Angus Event that was held in Grand Island, Nebraska this past June. Candy's mom stems back to the prestigious Utopia 42U cow family. We purchased her mother as an open heifer from Erik and Jesse Nelson, and all she has done is raise champion-type cattle. If you had a chance to see her mother, you would see that Candy is a spitting image of her. She is big and powerful and will work well into anyone's herd. Candy will open the door for almost anything as far as breeding or donor cow prospect. Candy is one that should be on everyone's list for this year's Red Carpet Classic Sale.

Hopefully the boys will still speak to me after offering Connie in the sale. Connie is the first progeny to be sold from our Red Ala Mode 36Y cow. The first two offspring are still in our herd today. We love this cow so much we actually have done two In Vitro Fertilization with her. Connie was a Division Champion at the Iowa State Fair Junior Show this past August in Des Moines. Here is a chance to purchase a show heifer that you will be able to compete in the show ring and raise some powerful calves for years to come. Study the pedigree on this girl – Pie Code Red 9058 and Red Brylor New Trend 22 – two of the most powerful bull pedigrees alone!!!! Buy this girl, show her and then have some fun breeding her to fit into your herd!!!!

This March heifer could be one of the most powerful heifers we have. She is a big footed and long spined heifer that has the numbers to go along with it. Check out the numbers – she is in the top 2% of the breed in WW, YW and CW with being in the top 25% of the breed in GridMaster. Chasity brings to the table a great set of balanced EPDs along with some great cow making characteristics. Chasity will fit well into anyone's Red Angus herd.

This fancy April heifer hails from a Rich Red Angus sire that goes back to one of his most significant cows – the WCC Phyllis Cow. Chloe might be the youngster of our open heifers we are offering this year on the Red Carpet Classic sale, but she still is a good one!!!

Lots 53-54...The next two cows are confirmed bred to Badlands Opportunity 53Y (1455307). Opportunity was the \$55,000 dollar bull that sold last year in Denver. The Badlands Opportunity bull was the sire for Chase's 2013 Iowa State Fair Champion Junior Bull calf and the 2015 Iowa State Fair Champion Spring Bull calf. Both these cows are confirmed AI bred for a first of February calf.

This cow originates from the well known Damar Farms out of Wisconsin which has had multiple champions in the Red Angus breed. If you have at all paid attention to the breed, you would have noticed the multiple times this Red Ter-Ron Real Deal 01W and Tarmily combination have been showed around the country. This one is no exception! She is one of the soundest cows on her feet and has a perfect udder placement. Here is a good sound young cow that you can get a return on your money in no time. If bred right, you might do it on one calf. Not only that, but she is confirmed AI bred to the \$55,000 bull in Denver last year – Badlands Opportunity 53Y (#1455307). Coming with a first of February calf.

X7 is a Beckton Nebula M045 daughter. Here is a cow that is right in her prime. Her progeny has a 70 pound birth weight average and a 671 pound weaning weight. Now that is getting it done. I know that someone is going to ask why we are selling her if she is that good. Well, the simple answer is that we know that we cannot keep all the good ones for ourselves and we want to bring good quality cattle to the sale. Buy this cow with confidence that you can take her home and she will get the job done. Just take a look at the numbers. Not only that, it evens gets better. She is confirmed AI for a February 1st calf to LSF SAGA 1040Y (1445368).

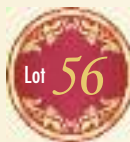

Lots 56-62...This group of bred heifers we are offering this year on the Red Carpet Classic Sale we feel are some of the best bred heifers we have ever had. These girls go back to the well known Pieper Red Angus genetics that hail from Hay Springs, Nebraska. We have bred these heifers for the way we would want to calf them out ourselves. Please study the pedigrees on these girls, and we are confident that you will find something that you like. We have confirmed the breeding dates on Nov. 3rd by ultrasound and all the vet work has been performed by the Waukon Vet Service. Please not only study the pedigree on the heifers but also take some time to study the bulls that we used on them. Most of these could pay for themselves with their first calf. You can buy any on these heifers with confidence that they can do the job for you.

Every year there is always one animal that catches your attention when you go out and check them. Poteet was that one this year. Sired by TKP Fat Tony 211, a Red Northline Fat Tony 605U son, Poteet will not disappoint you. She has all the qualities to be a herd changer and is confirmed AI bred for a February 15th calf to the well known Silveiras Mission Nexus 13789 (1410853). This should be a great combination.

This March heifer is sired by one of the newest Red Angus sires LSF TBJ Lumberjack. With TPIE Wagonmaster on her dam's side and Lumberjack on the sire's side this could be one you will want to take a look at. She is big and powerful and wide open to use as you wish. She was pasture expose to CSPF Buck (1673449) an Arson 85U son, expected due date of 4-15-2016.

Lots 63-72: Consigned by McCormick Red Angus

McCormick Red Angus brings another exciting group of bred females to the 2015 Red Carpet Classic! We have something for everyone, whether you are adding to your herd or just getting into Red Angus genetics. Our sale lots all carry the "MCCR" prefix. We raised and bred all these heifers, and in many cases their dams and granddams. You will find some very desirable pedigrees along with rare and interesting matings. Previous buyers have told us that calves from our females were some of their best. Our cattle are on a comprehensive vaccination and parasite control program and fed homegrown forages with Vitaferm mineral supplementation. Visit us on Facebook at McCormick Beef or our website www.mccormickbeef.com for more pictures and updates. Give us a call – there is nothing that we would rather talk about than Red Angus cattle!

Here is a black/red carrier Samurai daughter that has a 50/50 chance to have a red calf. She has an excellent set of EPDs with a top 10% Herdbuilder. Maternally a Bushwacker 41-93, she has this in common with Ten X, the top bull in the Black Angus breed. Bred for a 3/9/2016 Accent calf. We had nearly 100% conception with the Accent semen and can't keep them all!

MCCR Honeybabe 4146 is an attractive, long bodied, growthy heifer that will not disappoint. This April heifer was AI'd to Accent and then exposed to our Quest bull. Expected calving date is 3/3/2016 to Quest. His half brother, 5L THE QUEST 2871-492B (1725734), sold as Lot 2 in the November 5L Sale to Loosli Red Angus for \$30,000. Another half brother, 5L OUT IN FRONT 1701-457B (1725576), was syndicated for \$100,000 last year. Our bull has a top 8% Herdbuilder and 5% Gridmaster. Here is a chance to get an exciting 1A calf!

The Carol maternal line has been a favorite at MCCR. We got Synergy semen from Halfmann's in Texas and now he is added to the Accelerated Genetics lineup. He is a 3/4 brother to Genex's Brown Redemption and out of the Abigrace cow family. 4076 is a top 3% HB and bred to Hard Drive for a 2/20/2016 calf. Hard Drive is top 1% GM and we know his calves come easy, have explosive growth and a super disposition.

Another Synergy heifer bred to Hard Drive! What an incredible mating only found here. This deep, cherry red heifer will catch your eye. Top 2% HB, 4% GM, 7% CED. These heifers were raised without grain, on unsupplemented pasture all summer and look at the depth, thickness and easy fleshing ability! Category 2 because of white ahead of the navel.

MCCR Gilda 3014 is a direct daughter of the legendary Glacier Chateau! Try to find Chateau daughters that breeders will let go. We are keeping her Hard Drive heifer calf this year and she is expecting her second calf out of 5L Advantage on 4/21/2016. Top selling Lot 1 at the 5L sale in November was an Advantage son going to Leland, Koester and Wedel for \$34,000. Advantage semen is very limited and in demand. Get in on this one.

Video Auction Research Quantifies Value of Red Angus Cattle

Information shared at the American Society of Animal Science (ASAS) meetings held mid-July in Orlando, Florida, indicates that Red Angus calves are more highly valued by cattle buyers than other breed types.

The abstract, entitled "Effect of breed on the sale price of beef calves sold through video auctions from 2010 through 2014" (King, et al., J. Anim. Sci. Vol. 93, Suppl. S3-pages 640-641.), contained data on 33,811 lots of calves, totaling 3.3 million head, sold in 116 video auctions.

Breed description of the calves were categorized into five groups: English, English crosses, English-Continental crosses, Black Angus sired out of dams with no Brahman influence, Red Angus sired out of dams with no Brahman influence, and Brahman influenced.

Breed of the lot significantly affected the sale price of beef calves in these video auctions. Red Angus-sired calves sold for a higher price than all other breed groups. The average price

of the Red Angus calves was \$166.16 per hundredweight (cwt) – \$7.38 per cwt more than Brahman-influenced calves; \$3.61 per cwt more than English-Continental crosses; \$3.30 per cwt more than other English and English-cross calves; and \$1.92 per cwt more than Black Angus-sired calves.

Gary Fike, director of commercial marketing for the Red Angus Association of America (RAAA), said that this data is validation for Red Angus breeders. "It is no secret that Red Angus calves have proven their value in the arena of feedlot performance and carcass merit," said Fike. "Red Angus-sired heifer calves used as replacements in the cowherd are also recognized for their docility, maternal characteristics and longevity. Now data exists that quantifies that value in the marketplace."

"Demand for Red Angus genetics is at an all-time high. The industry has responded, paying record prices for Red Angus bulls and replacement females this past winter and spring. The fact that Red Angus-sired calves have outsold other breed types over a five-year

period is a testament to the long-term value of the breed and its position in the market place. Cattlemen and women who use Red Angus genetics can be assured that their selection choices are being rewarded from a financial standpoint," concluded Fike.

Buyers of Red Angus bulls that have the bulls' registration papers transferred to them are also eligible to enroll in the Feeder Calf Certification Program (FCCP) and tag their calves with the yellow Red Angus tag. The FCCP is a genetic-, source- and age-verification program. Buyers of calves with the distinctive FCCP tags in place can be assured the calves are at least 50 percent Red Angus. This tag also qualifies finished cattle for grid programs offered by Tyson Fresh Meats and Greater Omaha Packing.

For more information about the abstract, contact Fike at 785-410-2608.

To learn more about the FCCP tags to enhance the value of your Red Angus-sired calves, contact the RAAA at 940-387-3502.

Achieve it!

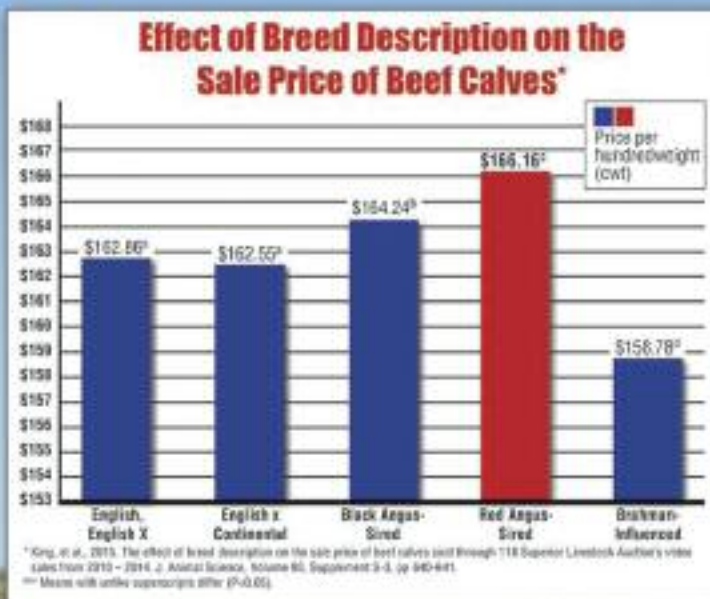

RETURN ON INVESTMENT

Red Angus genetics will improve your return on investment!

"For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day."

— Jim Davis, Superior Livestock Auction

Independent research shows Red Angus-sired calves sold for a higher price than all other breed groups. Red Angus bulls make a positive difference in your breeding program's bottom line.
